

LEHLOGONOLO M. MMADI

Site Reliability Engineer | DevOps Specialist | Cloud Architecture Expert

Cape Town, Western Cape, South Africa

0798477092 | mashitishimmadi@gmail.com | linkedin.com/in/lehlogonolo-mmadi

PROFESSIONAL SUMMARY

Site Reliability Engineer with strong AWS cloud support and DevOps experience. Proven track record operating production services, reducing incident time, and improving deployment workflows. Expertise includes Kubernetes, Docker, Terraform, CI/CD, observability, networking, and automation. Hold AWS Cloud Practitioner and AWS Certified AI Practitioner credentials and multiple cloud and data certifications. Work history includes hands-on support and engineering at Amazon Web Services and delivery of automation and container best practices to customers.

CORE STRENGTHS AND TECHNICAL FOCUS

Site reliability engineering | Incident management | Kubernetes (EKS) | Docker & containerization | Infrastructure as code | Terraform | CI/CD pipelines | Monitoring & observability | Networking (TCP/IP, DNS) | Automation & scripting

PROFESSIONAL EXPERIENCE

Cloud Support Engineer I — Amazon Web Services

Dec 2021 - Present | Cape Town, Western Cape, South Africa

- Provide technical support and guidance to customers running containers on AWS with emphasis on reliability and best practices
- Operate and troubleshoot Amazon EKS, ECS, Fargate, and AWS Batch workloads in production

- Design and improve CI/CD workflows using ArgoCD, GitLab, CodeCommit, CodeBuild, CodeDeploy and CodePipeline
- Implement monitoring and tracing using CloudWatch, Managed Prometheus, Managed Grafana, App Mesh, X-Ray and ADOT
- Automate infrastructure using Terraform and AWS CDK and manage secrets with AWS Secrets Manager and Keycloak
- Scripting for automation with Bash, Python and PowerShell

Cloud Support Associate (Deployment) — Amazon Web Services

Aug 2020 - Dec 2021 | Cape Town, Western Cape, South Africa

- Supported deployments and migrations to AWS using IaC and deployment pipelines
- Guided customers on availability and security best practices

Cloud Support Graduate / Intern — Amazon Web Services

Feb 2020 - Jul 2020 | Cape Town Area, South Africa

Intern — The Digital Academy

Aug 2019 - Jan 2020 | Johannesburg

- Developed integrations and small applications using NodeJS

EDUCATION

Bachelor of Science, Mathematics and Computer Science

University of South Africa | In progress

Postgraduate Diploma, Information Technology

Tshwane University of Technology | In progress

Advanced Diploma, IT: Communication Networks

Tshwane University of Technology | Jan 2022 - Dec 2023

National Diploma, IT: Communication Networks

Tshwane University of Technology | Jan 2017 - Jan 2020

CERTIFICATIONS

AWS Certified AI Practitioner | Issued Jul 2025 | Expires Jul 2028

AWS Certified Cloud Practitioner | Issued Jan 2023

Data Streaming Engineer — Confluent | Issued Nov 2025 | Expires Nov 2027

Graph Developer - Associate — Apollo GraphQL | Issued Nov 2025

AWS Generative AI Foundational (L100) | Issued Sep 2025 | Expires Sep 2026

AWS Generative AI Technical Intermediate (L200) | Issued Sep 2025 | Expires Sep 2026

Databricks Academy Accreditations | Issued Sep 2025

Multicloud Network Associate — Aviatrix | Issued Aug 2025 | Expires Aug 2028

AWS Knowledge modules and AWS Educate badges | Issued 2023

AWS Certified Solutions Architect — Associate | Issued Jun 2020 | Expired Jun 2023

HCIA Routing & Switching — Huawei | Issued Sep 2019 | Expired Sep 2022

TECHNICAL SKILLS

- **Container Orchestration:** Kubernetes (EKS), Docker, container orchestration and microservices
- **Infrastructure as Code:** Terraform, AWS CDK, infrastructure as code
- **CI/CD Tools:** ArgoCD, GitLab, AWS Code* services
- **Monitoring & Observability:** CloudWatch, Prometheus, Grafana, X-Ray, ADOT
- **Networking:** TCP/IP, DNS, routing, switching
- **Programming & Scripting:** Python, Bash, PowerShell, Java, NodeJS
- **Data Platforms:** Confluent Kafka, Databricks
- **Security:** AWS Secrets Manager, Keycloak
